

EXHIBITORS A to Z

The dredging exhibition showcases leading companies from around the world, who will be demonstrating their latest products and services.

▶ Aquamec Ltd - Watermaster | www.watermaster.fi

Aquamec manufactures Watermaster dredgers—multipurpose water construction machines with excellent mobility. Watermasters offer versatility and solutions for many kinds of work sites in shallow water areas such as city canals, rivers, industrial ponds, lakes, marinas and seashores. A Watermaster's capabilities include suction dredging, backhoe dredging and pile driving—all with one versatile machine. Aquamec holds the ISO 9001 quality certificate and the ISO 14001 environmental certificate. There are over 220 Watermasters—manufactured in Finland—operating around the world. Watermasters are versatile, mobile and proven. ■

▶ Aquavision BV | www.aquavision.nl

Aqua Vision is an independent hydro- and oceanographic consultancy, with clients that include government agencies, dredging and offshore industry, and engineering companies worldwide. We offer a comprehensive range of services including inland and coastal surveying, hardware and software development, representation of leading industry manufacturers, and leasing from our extensive instrument pool. ViSea, our in-house developed software, is used worldwide for ADCP data collection, validation, and presentation. Interested in our activities? Take a further look at our website. ■
